Monthly List
of
Russian Accessions

Vol. 8, No. 6

September 195

THE LIBRARY OF CONGRESS
WASHINGTON : 1955

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions List*.

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no accessions published earlier than 1945 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets. Since this procedure changes the alphabetic arrangement of title entries, cross references are given from these titles to their English translations.

Part B lists Russian periodicals with their tables of contents translated into English. However, accessions printed earlier than 1947 are not included.

Part C is a subject guide to both the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers desiring to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample title: Electric action of the brain in glaucoma. L.S.Levina, G.M.Neishtadt. Vest.oft. 30 no.5:8-12 S-O '51.

Explanation: An article with title given above in English translation, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik oftalmologii*, vol. 30, no. 5, pages 8-12.

A list of periodicals included in the current issue, with abbreviations used, is given at the beginning of Part C in each issue of the LIST. The number and letter in parentheses following each periodical title indicate the class and subclass in which it is to be found in Part B. Cumulative lists of periodicals included in the current volume appear in numbers 6 and 12 of that volume. These lists are arranged by subject; the symbols of American libraries other than the Library of Congress, known to have current files of such periodicals, follow each title.

Except in Part C, the material is divided into 17 subject classes and is arr
within each class. In addition, for the convenience of the reader, th
divided within each subject class into several subclasses. All entr
to the usual Library of Congress system except that ligatures are
cated, all listed items are represented in the collections of the Lib

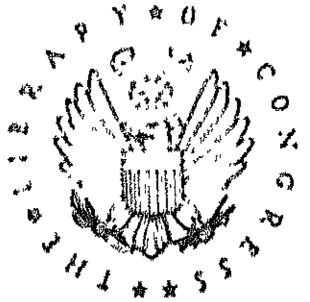
Monthly List
of
Russian Accessions



THE LIBRARY OF CONG
WASHINGTON : 1955

INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language issued in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages issued in the Soviet Union are also included. However, publications in the languages of the U. S. S. R. issued in countries of Eastern Europe are not included, since they are covered by the *East European Accessions List*.

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no accessions published earlier than 194[illegible] are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets. Since this procedure changes the alphabetic arrangement of titles in Part A, cross references are given from these titles to their English translation.

Part B lists Russian periodicals with their tables of contents translated into English. However, [illegible] published earlier than [illegible] are not included.

Part C is a subject index of all the monographs and periodical articles listed in Parts A and B. Monographs are listed under the appropriate subject headings first, followed by the periodical articles. For the convenience of readers who want to examine only monographs or periodical articles, the monographs are printed in slightly heavier type than the periodical articles. The titles of monographs are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Sample entry: [illegible] L.S.Levina, G.M.Neishtadt. Vest.oft. 30 [illegible]

Explanation: An article [illegible], given here in English translation, written by L. S. Levina and G. M. [illegible], will be found in the September-October 1951 issue of *Vestnik of-* [illegible] pages [illegible]

A list of periodicals [illegible], with abbreviation used, is given at the beginning of Part C [illegible] of the LIST. The number and letter in parentheses following each period- [illegible] to be found in Part B. Cumulative lists of [illegible] appear in numbers 6 and 12 of that volume. These l [illegible] libraries other than the Library of Congr [illegible], follow each title.

[illegible] Part C, [illegible] is divided into 17 subject classes [illegible] within [illegible]. In addition, for the convenience of the reader, the [illegible] divided [illegible] several subclasses. All entries [illegible] to the [illegible] Library of Congress system except that ligatures are omitt [illegible], all [illegible] represented in the collections of the Library o [illegible] other libraries [illegible] when these are available in these libr [illegible] at the time of receipt the material was availabl [illegible] in the Library of Congress.

A cumulative author, subject, and periodical location index to th [illegible] MONTHLY LIST is available as a separate publication. Beginning [illegible] index [illegible] periodical location index for the enti [illegible] appear [illegible] of the following volume.

Orders for [illegible] or photostat copies of the listed items that [illegible] Library of Congress may be placed with the Photoduplication Service, [illegible]ington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, $9.00 a year domestic, $11.00 a year foreign. Price of Cumulative Index to Volumes 1–3, $1.50.
